

Pure Organic Luxury For Your Skin

Finally, an organic base with potent anti-aging extracts!

Zealand's first anti-aging skincare to contain stabilized organic wholefoods

Nahaia Russ N.D is the Formulation and Cosmetic Sciences Founder for Nahaia Active Organics. She is a Registered Naturopath and Medical Herbalist. Nahaia has spent the last seven years engaged in comprehensive research and development with a unique objective in mind: To create skin care that was not only pure and organic, but also potent!

Based on naturopathic principles Nahaia Active Organics uses a 'whole food' approach to healthy skin. The latest in anti-aging concentrated botanical extracts, nutrients, whole foods, herbals and quality organic oils have been carefully chosen for effective results. The result is truly remarkable organic skin care: a range of 'naturally active' organic products so natural they are 'almost edible plus customers see results in rejuvenation and repair.

Look Good Factor Nahaia Active Organics is a synergy of nutritional science, alchemy and cosmetic chemistry creating a new paradigm in beauty. It's called nutritional chemistry with consciousness, using only certified, organic, food-derived ingredients and substances the body recognises as nutrients, along with a 'feel good' philosophy and unique 'Micro Vita Love' to enhance the user's wellbeing.

We all know how nutrients in our diet play a significant role in beautiful healthy looking skin. Imagine the results of putting those nutrients directly on to the skin in cosmetic formulations. **Clinical trials verify** the skin care's efficacy in **skin repair**, increased hydration, **wrinkle reduction**, DNA protection and immune activation.

Feel Good Factor Kind to the environment; Never tested on animals and does not contain animal derivatives; Sustainable herbal cultivation; Made with micro vita and shell essences of love for a more balanced holistic state; Eco perfumes or organic essential oils are always used; Does not contain propylene glycol or petrochemical, mineral oil, chemical preservatives/ fragrances, parabens (methyl, ethyl, propyl and derivatives) or sodium laurel sulphate as per Organic Standards Criteria (Eco Cert).

Organic Certification With sumptuous textures and exquisite natural fragrance and oil blends, the Nahaia products are a luxury to use, while being free of any ingredients prohibited by 'Eco Cert' Organic Standards. NAHAIA Certification under the Eco-cert Organic Standard & COSMOS is in processing and expected to be completed by the end of 2011.
